

[www.GlendaleAzLibrary.com](http://www.GlendaleAzLibrary.com)

Click on the **Library Databases** link (found under **Books, Media & Research** in the menu at the top of the site)

- Your library card must be current and free from serious fines or overdue materials.
- On the **Library Databases** page, you may browse databases alphabetically or by category.
- When prompted, type in your library barcode number and your password (usually the last four digits of your telephone number).
- Click on **Log In**. You will be returned to a list of databases.
- Click on the link for the database you wish to access.

Try accessing the library databases on a phone or tablet!

If you need assistance, email the library at: [elibrarian@glendaleaz.com](mailto:elibrarian@glendaleaz.com)

## What is a database?

A database is an electronic collection containing information. A library database can include text articles, books, videos, music, citations, abstracts of articles or chapters in books.

Think of a database as a fact-checked, more organized Internet!

**Databases are your best choice for school assignments!**

### Arizona Resources
